

Illuminate Your Data!

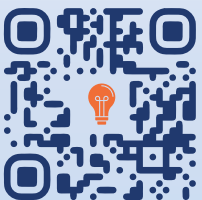

The AI-Powered
Auto-Classification Engine
for Enterprise Information.

mosaiQ
Illuminate

mosaiQ Illuminate leverages advanced AI to automatically classify your unstructured data, enforce policy, and unlock significant cost savings across your organization.

- **Automate Policy Application:** Seamlessly apply your retention schedule to corporate data sources, identifying, classifying, and managing records with unparalleled accuracy.
- **Eliminate Redundant Data:** Intelligently discern non-records, ROT, and expired data for disposition, slashing your data footprint.
- **Drive Tangible Cost Savings:** Realize immediate and significant reductions in data storage, discovery, and management costs by eliminating unnecessary information.
- **Strengthen Compliance & Legal Hold:** Enhance your legal hold readiness and build a more defensible compliance posture by gaining command of your unstructured data.
